REV. DR. HUSTON.

Becond Day's Proceedings Before the Ecclesiaseal "Star Chamber."

The Witnesses Do Not Confirm Virginia Hopkins' Statement-Lucy Denies Being the Special Messenger on the Occasion-The School Girl's Case to Come Next.

BALTIMORE, Md., May 22, 1872, The trial of the Rev. L. D. Huston for improver ntimacy with a number of females in this city was resumed this morning at ten o'clock. The sessions of the ecclesiastical court are he'd in the second story front room of the parsonage of Trinity Methodist Episcopal Church South, No. 131 Biddle street, the same building in which the accused resided prior to his suspension from ministerial duties. The roof in has an air of domesticity and comfort about it entirely foreign to the purpose for which it if, at present employed. A walnut wardrobe, bure an, with pier glass, two small tables, and the chat's necessary for seating the members of the Court, constitute its sole furniture. The reverend go atleman must at least experience peculiar sense lons at finding himself a quast prisoner in a hous; over which he, but a few short months ago, exercised all the rights of tem-

porary proprietorship.

SECOND DAT'S PROCEEDINGS.

Rev. Samuel Rockers, the President, opened the tribunal this morning with the usual religious services. In the youmeration of the members of the Court in to-day's HERALD the names of Rev. P. H. Whisner and Rev. Mr. Crenshaw were omitted. Rev. George H. Zimmerrain acts as recording secreatry, and Rev. J. S. Gardneragain appeared as counsel for the church, while D. Eldridge Monroe conducts the investigation in behalf of Huston. Huston was present in Court, and personally as-

sisted his coursel by suggestions in the examina-tion of witnesses. In demeanor he is perfectly calm and collected; in fact, "as cool as a cucumber," and, to all outward appearance, manifested less excitement than any of those engaged in the trial of the caus.

J. Wesley S. Ath was the first witness called. He said that he | Arew nothing about Huston's connection with Vi minia Hopkins, save what she had hergett told hir A. He was not a friend of the reverend gentleman, but he did not think he could be induced to I sisrepresent him. He had been a mem-ber of the Methodist church for a number of years, and had performed all the religious duties pertain

ber of the Methodist church for a number of years, and had sentermed all the religious duties pertaining to b is membership, and had passed through all the gri stations, such as passing around the hat, class is ading and occapying the position known as the "Amen Corner." He left Dr. Huston's church simply because he did not consider the accused a mora spastor and an exemplar of the faith he was ords med to preach. The mind of this witness appeared to be burdened about some matter which he which he wished to disclose, even after he had left the star Ad; but, as his evidence in this case was simply hearsay, he was not long detained by the Coart.

WHAT MRS. WAITE KNEW ABOUT IT.

Mrs. L. H. Wait, a highly respectable middleaged lady, was the next witness examined. She was handsomely dressed in heavy black silk, with a lace mantite thrown over her shoulders. This lady has a very determined expression of countenance, and gave her evidence, or rather her answers to the few questions propounded, in a terse and nervous style. She stated to the Court that she knew nothing of the case of Virginia Hopkins except what she had been told by Virginia herself. The saccredotal tribunal, not deeming this worthy of consideration, as they had Virginia's own statement, dispensed with any further questions, and the Madam retired from the stand exceedingly shagrined and brimming over with pent up wrath because she was not allowed to give her opinion of matter in general to that dignified body.

Here ended the prosecution of the first charge against Dr. Huston and his counsel were rapidly griven to the hotel of the former, while the preachers separated for the nonce to dine with their friends in the city.

Virginia Hopkins, in her evidence yesterday before the Court, said that Huston sent a colored pervant for her to come to his house, and upon her parior.

Lucy Will NOT "GO BACK ON HIM."

Upon the reassembling of the Court at three

parior.

Lucy WILL NOT "GO BACK ON HIM."

Upon the reassembling of the Court at three pelock "Lucy." the colored servant whom Dr. Huston brought to this city from the South, was placed on the stand by the defence. Lucy is the party who Virginia Hopkins alleges came over to summon her to Huston's dwelling on the occasion of her downfall. She testified that she did not act as Huston's messenger at that time, and that, in point of fact, at the period when Virginia Hopkins locates her seduction Dr. Huston was too sick to move about, and that his son, Colonel Huston, was his constant attendant. She also said Virginia Hopkins told her six months

Histon was too sick to move about, and that his son, Colonel Huston, was his constant attendant. She also said Virginia Hopkins told her six months prior to the alleged seduction that she was in the habit of receiving the advances of other men.

VIRGINIA'S STATEMENT NOT CONFIRMED.

The defence claim to have more witnesses to be examined, after which this case will be closed. Thus far the evidence of Virginia Hopkins is without confirmation. It is fastly contradicted by the last witness. How far ithe Court may be disposed to give credence to Lucy's testimony it is impossible to say. If they believe it the first charge against the accused falls to the ground.

The workst Case to Come.

The case of the young Sunday school child will be taken up to-morrow. The details of her alleged seduction are much more revolving than those in the charge at present under investigation. Her mother says she will not permit her to appear before the Court without counsel. This privilege will probably not be allowed, as the rules of the Church forbid that any save preachers shall be present. The trial of this charge will probably conclude the investigation. It is therefore possible that the trial will last beyond the first of next week.

Excitement and town to the first of next week. EXCITEMENT AND TOWN TALK.

EXCITEMENT AND TOWN TALK.

Some dependence of excitement prevails in the community, and the Herald is eagerly sought after, as it has thus far contained the fullest account of the trial. The comments of the public are somewhat antagonistic in their character. The friends of Dr. Huston are triumphant, asserting confidently that there is no case against him, and that he will be exonerated by the Court, while others are indignant at the manner in which the examination has been sonducted.

WELCOME TO REV. DR. STORRS.

The congregation of the Church of the Pilgrims feasted their eyes and gladdened their hearts last evening in a reception given by their pastor, Rev. Dr. Storrs, who has just returned to his flock after an absence of eighteen months in Europe. The joyful reunion occurred in the comodious school room attached to the church, Henry street, corner of Remsen, Brooklyn. The apartment was decorated with a rich profusion of rare flowers, wrought into appropriate motioes and devices. The attendance of ladies, and gentlemen of the church was very large, despite the great fall of rain without doors. Dr. Storrs made his appearance, looking much improved in health, about eight o'clock, and was surrounded by his parishoners, who shook him warmly by the haud and bade him welcome, while the hall was flooded with music prepared for the bocasion. Bubsequently Mr. Buck, on behalf of the Pligring, farmally welcomed Dr. Storrs. The reverend gentleman feelingly responded, thanking God for His mercy and protection during his travels, and expressing his affection and regard for his bongregation whose love had so fully tested and whose corth the deeply felt. joyful reunion occurred in the comodious schoo

Annual Meetings Yesterday of the Baptist Publication Society and the Woman's U-nion Missionary Society.

The Baptist Publication Society.

The Brole and Publication Society of the Baptist Churr'n held its forty-eighth anniversary, at the Cal'/ary Baptist church, on Twenty-third street, y sterday. President William Phelps had the chair in the morning, when only the merest routine business, such as the appointment of committees and the reading of reports, was transacted. Short addresses were delivered by Dr. Alfred S. Patton, James S. Dickerson and others on the missionary character of the society; but otherwise matters of general business alone were discussed. The report, of the Treasurer, which was read and receive a

among others, is as follows:—
The total receipts of the Bible and Publics tion Society for the year enling March 1, 187 2, in all departments and from all sources, amount to \$396,369 95, being \$54,219 36 more than the 7 eccipts

\$396,368 95, being \$54,219 36 more than the telepts of any preceding year.

Of this amount \$335,254 94 were received in the business department, making an excess over the receipts last year in the society's business of \$60,814 95.

The receipts in the missionary department were \$51,114 01, being \$6,596 59 less than the receipts in this department the previous year. In that year, however, \$5,000 were received as a sy ecial donation for the Ministers' Library Fund.

The total issue of books, tracts. Sunday school and Church papers for the year is \$7,273,624, fifty-six colporteurs and Sunday school w issionaries have been in commission, and the vario is Sunday schools and churches have been greatly st, rengthened.

In the afternoon Rev. Charles Keyser presided. Short addresses were made by Rev. William Catheart and J. F. Elder. In the regular reports of committees the Committee on Jamendments to the Constitution reported several amendments, which were adopted.

Constitution reported several amendments, which were adopted.

Dr. Maldolm moved that the word "Bible" be stricken out of the title of the society, which, after some debate, was acceded to.

A committee specially no med for the purpose reported on the subject of Mr. Van Meter and the proposed Howard Mission in Rome, stating that some misunderstanding it ad ensued in consequence of the double construct on to be placed upon the wording of the report, and providing that all in the report relative to Val Meter and the mission in Rome be stricken out. This was agreed to.

A resolution for the appointment of a committee of arrangements for the next annual meeting was passed.

of arrungements for the next annual meeting was passed.

A committee on general business then presented the three following resolutions, which were discussed with great spirit:

Resolved, That the Treasurer be requested to give in his annual published report, the name and salary of every secretary, editor, agent, coloperteur and missionary, to gether with a full and classified statement of every other kind of expense incurred during the year.

Resolved, That we fully sympathize with the efforts of our Southern brethern to erect a meeting house in Rome, and that we commend the enterprise to the liberality of the churches of the North.

Whereas the year 1876 will be marked by the centennial anniversary of our national independence, and will thus be a conspicuous epoch in our general and religious hissistory, and whereas a favorable occasion is thus afforded for us as Bapisits, in connection with other Christians, to record our history and progress in this country, therefore Resolved, That the Board of this society be requested to consider the propriety of preparing and publishing a history of the Bapitst denomination in the United States, this history to show not only the growth of the denomination during the past century, but its action in foreign and domestic missions and other forms of Christian and social influences.

After pretty vehement debate on each resolution

tion during the past century, but its action in foreign and domestic missions and other forms of Christian and social influences.

After pretty vehement debate on each resolution separately, in which flery language was hurled about with a liberality supposed to be unattainable outside of Congress, each resolution was carried. The Committee on Nominations then reported the following list of officers for the ensuing year:—President—S. Talbot, D. D., Ohlo. Vice Presidents—Mr. Samuel A. Crozer, Pennsylvania; Mr. James L. Howard, Connecticut; Mr. James Randell, New York; Mr. E. D. Jones, Missouri. Secretary—Benjamin Griffith, D. D. Recording Secretary—Mr. Horatio Gates Jones, Pennsylvania. An amendment was offered to the report by Mr.

Keen, M. D.

An amendment was offered to the report by Mr.

An amendment was offered to the report by Mr.

Fullon, of Boston, substituting the name of Charles
Keyser for that of S. Tailoot as President, and paying a very high compliment to Mr. Keyser's ability
in handling so stormy a session. The report was
so amended, but subsequently, the discussion becoming almost offensively personal, Mr. Keyser
distinctly and positively declined the honor. The
report, as originally offered, was then adopted.

In the evening session Mr. Van Meter and Rev.
W. W. Everts made speeches on the subject of the
mission to Rome.

Women's Union Missionary Society.

The Women's Union Missionary Society held a meeting yesterday afternoon in the lecture room of the church on the corner of Twenty-first street and Fifth avenue. There was not a very large attendwith a short prayer, introduced the Rev. Dr. Waugh, a returned missionary from India. This genticman drew an encouraging picture of the progress of the Gospel on the golden shores of Ind. Preachers of the divine truth were now received with greater favor in India, Burmah and other Eastern Territories than they had been in the olden time; the thick mist of idolatry which had for centuries overhung the ancient world was ris-

for centuries overhung the ancient world was rising rapidly, and bright beams of the Holy Gospel were lighting the land.

Mrs. Ransom, the Financial Secretary, then read a number of letters from ladies who have been sent to the East Indies in the service of the mission. Many of their epistles were highly interesting, as they tended to show how well the good work was progressing. They spoke of the flourishing condition of the schools established by the mission in various parts of India and Ava, and overflowed with touching anecdotes relative to conversions made in those far distant lands. The receipts of the mission for the past year amounted to \$29,077, of which \$13,000 had been realized at the Easter Fair.

the mission for the past year amounted to \$29,077, of which \$13,000 had been realized at the Easter Fair.

The Rev. Dr. McKay then addressed the meeting. He referred to his recent lengthy sojourn in the Chinese empire as a missionary, and spoke in glowing terms of the rapid strides Christianity is making in the "Flowery Land." The difficulties with which ministers of the Gospel had been surrounded during past years in that country were gradually being overcome, and the Holy Word was now being diffused throughout that vast empire in a manner most graturing to all those who had the welfare of the heathen at heart. It was a difficult task which servants of our Lord had to perform in uprocting the idolatrous notions and ideas which had been for hundreds of generations the inheritance of the Chinese; mereover the rulers were especially averse to foreign doctrines being instilled into the minds of the people. The natives of China are always ready to resist anything like innovation; it is a part of their nature to adhere to the customs of their ancestors; therefore it can easily be conceived how difficult is the task of sowing the good seed among a population so vast as that of China. But, though other sects and religions had almost given up the task of converting these downtrodden people to the true faith, Protestantism is gaining great headway in Cathay. Missionaries are no longer denied ingress to the interior of the country, are seldom treated with the barbarity they experienced in the olden time, and Buddhism, Taouism, Mohammedanism, Nestorianism, and even the doctrines of Confucius were raplidy decilning, and the worship of the only true and living God was spreading Itself throughout the whole empire. Schools have been established in many parts of almost every province, the education of native children by foreign missionaries being no longer regarded with intolerance by the mandarins and foutals. Services were held in buildings suited to the purpose in places where churches did not exist, and these were attended Fair.
The Rev. Dr. McKay then addressed the meeting.
